DECLARATION SPECIALIST IN STRUCTURAL

PEST MANAGEMENT

1 I am a specialist in structural pest control and have been so since
2 1968 when I received my license from the State of California.

3 I have extensive experience in developing pest control programs

4 I am president of Pest Management Services, Inc., which has been in business since 1971.

5 It is my professional opinion that the rock simulation is a very effective

6 method of pest control.

7 I have been investigating Mr. Townsend's complaint and have

8 been especially advantageous over other pest control methods in that it does not

9 environment disrepect. It is also very effective because it is a

10 prevention target which is very effective in preventing the pest

11 from entering the structure.

12 I hereby declare that all statements made herein are true and correct.
